

# High Flyers

## State Personnel Development Grant Partners

The High Flyers are a group of Arizona districts and charters that demonstrate ongoing exceptional results for the achievement of students with disabilities. The Arizona Department of Education, Exceptional Student Services conducted a study of schools that did not demonstrate a significant gap in achievement between students with disabilities and their nondisabled peers. Several of these schools will share knowledge of what makes them successful and provide video demonstrations for the modules. The following are the High Flyer partners of the SPDG:

Academy of Math & Science

Dateland Elementary, Hyder School District

EDUPRIZE Schools

Higley Unified School District

Kyrene School District

Red Rock Elementary School District

Vail School District

Villa Montessori Charter School
