MANAGEMENT PLAN

To implement and sustain system change for shared leadership, increased special education and general education collaboration with inclusionary practices, and staff development that will lead to an increase in student achievement in reading for students with disabilities in grades 4-8, the Arizona Department of Education will do the following:

- **Goal 1:** The Arizona Department of Education will create online professional development modules, facilitation guides, additional resources, and pilot school experiences available for statewide use.
- **Goal 2:** Three pilot district teams with pilot schools will complete professional development, implement systems changes, and create sustainability plans that will be replicated with their remaining district schools.
- **Goal 3:** The Arizona Department of Education will establish a cadre of experts to facilitate professional development and technical assistance to districts statewide.
- **Goal 4:** Pilot practitioners and the ADE/SPDG will establish a Community of Practice as a support system to continue their work in scaling up and sustaining improvement efforts.

Goal 1: The Arizona Department of Education will create online professional development modules, facilitation guides, additional resources, and pilot school experiences available for statewide use.
